Developers Dream - A Project With Approved Plans

This is a corner property with a lot of potential on the edge of the lovely village of Isla Plana with sea views.

The plans are for the downstairs to be a 3 bedroom, 2 bathroom home with garage. The main bedroom having an en-suite and the lounge being open plan to the kitchen.

The upstairs with its own entrance to the side of the property behind the garage, is to be 2 bedrooms, 1 bathroom again with open plan lounge and kitchen, with patio doors from both bedrooms and the lounge leading onto a large terrace with sea and mountain views.

The main construction work has been completed with four...

ations redone, electrics rewired, rsj's throughout to support the upper dwelling. A further €30,000 would finish this project off providing a beautiful home and rental potential.

The garage part has been converted into living accommodation with lounge and kitchen so you can move in while carrying on the work on the rest of the property.

If you like DIY this is the place for you, great investment project.
