Apartments to enjoy life!!! Building A consists of 12 apartments, three per floor, and it should be noted that they are not attached and those on the top floor are attics. The entrance is through the street below where the covered parking is located and with charging points for electric vehicles. Regarding building D, it will also have four floors, in this case with 2 apartments per floor, the 2 highest also penthouses and an independent one with a garden that will be the only one with these characteristics. All these apartments offer large spaces and have three bedrooms, all with direct access to the terrace, two bathrooms, a kitchen open to ...
