space inside and outside with the main garden, with Mediterranean shrubs and aromatic plants. We are dedicated to the construction of personalised villas in the Cumbre del Sol Residential Resort, with southeast orientation and exclusive views of the sea and the island of Ibiza. There are several models of villas, all of them with three bedrooms and two bathrooms on the main floor, and some offer us the option of extending it to four bedrooms if desired, since it has an open space on the ground floor with a private porch that allows it. All of them include the garden and a covered car park. A modern project built with qualities to match its design, which gives us a unique opportunity to live in the Cumbre del Sol Residential Resort.
