On the shores of the Mediterranean, in one of the most privileged enclaves of Torrevieja, stands an apartment that redefines the meaning of living in front of the sea. This home, with its four large bedrooms and two bathrooms, is presented as a haven of serenity where the sound of the waves sets the rhythm of each day. From the first moment, the home transmits a feeling of absolute calm, that unique sensation that is only found when the sea becomes part of your daily life. First impressions are unforgettable. As soon as you enter, natural light takes over the space, reflecting on well-kept surfaces and giving life to each room. The spaciousness...

of the apartment is perceived from the hall: each room seems designed to make the most of the clarity and the landscape, achieving an enveloping, bright and warm atmosphere. There is no corner that does not evoke well-being, nor moment that does not invite rest. The main living room, which acts as the heart of the home, opens towards the blue horizon, visually connecting the interior with the exterior in an almost imperceptible transition. The chosen furniture combines comfort and style, creating a cozy atmosphere where everything fits together effortlessly. The veins of the floor, the texture of the fabrics, the soft tones of the walls... everything comes together in a single intention: to live without haste, surrounded by beauty, with the sea as a constant witness. The kitchen, fully equipped and designed for everyday use, integrates naturally into the whole, maintaining the same philosophy of comfort and functionality. Here everything is ready for those who enjoy sharing moments with family or friends. Cooking with the sea breeze gently entering through the window or having breakfast while the golden morning light bathes the room is a privilege that transforms each routine into a pleasant experience. The four rooms provide spaciousness and versatility, allowing them to easily adapt to different lifestyles. Whether it is a family looking for space and privacy, a couple who wants to maintain an office or reading room, or even those who plan to receive visitors, this apartment offers endless possibilities. In all of them, the decoration follows the same criteria: neutral tones, noble materials and a continuous feeling of openness to the outside predominate. Sleeping listening to the sea, waking up to the light that filters through light curtains, opening the windows and breathing in the salty breeze: these are simple gestures that become small daily luxuries. The two bathrooms, spacious and comfortable, reflect the same spirit of balance and well-being. Everything is arranged to offer comfort and freshness, in a cozy environment that invites you to relax. The spaces, well distributed and functional, maintain a coherent aesthetic with the rest of the apartment, combining elegance and practicality. The real charm, however, is revealed when crossing onto the terrace. There the Mediterranean appears in all its splendor: a changing landscape that accompanies every season and every moment of the day. In the morning, the sun's reflections turn the water into golden tones; At sunset, the colors become warm and enveloping, offering a natural spectacle that is never repeated in the same way. This outdoor space, perfect for resting, reading, having breakfast or simply contemplating the horizon, becomes the soul of the home. Living here means living with the sea, with its constant presence, with its sound that accompanies both silence and conversation. The location, on the first line, makes this apartment a jewel of Torre Vieja. From this privileged position you can easily access the promenade, the best-known beaches and a wide range of restaurants, cafes and shops.
